OptoMap Retinal Imaging

Our office recommends annual dilation examination for all diabetic patients because diabetes is one of the leading causes of blindness in the United States. If you are not diabetic, it is still recommended that the doctors evaluate the internal health of your eyes, however we are currently offering an alternative by means of our OptoMap Retinal Camera. It offers the best view within each eye without the use of dilating drops.

Unfortunately, this test is **NOT** covered by most insurances.

The cost is \$39.00.

Please initial your preference below.

_____ YES, I would like to have this test & will pay \$39.00.

_____ NO, I would prefer to have my eye dilated.
